<b>ISSUE DATE:</b>	07-Nov-2003	<b>PR/DAR NO:</b>	
<b>RESCIND DATE:</b>	1-Nov-04	<b>REMEDY NO:</b>	14947

<b>PROBLEM :</b>	<b>PERSONNEL</b> <input checked="" type="checkbox"/>	<b>PAYROLL</b> <input type="checkbox"/>
------------------	------------------------------------------------------	-----------------------------------------

When an employee is returning from Leave without Pay (LWOP), personnel is unable to process the NOA 292 (Return to Duty) in DCPDS, if the employee has had an intervening action.

The error message received is described below:

APP-PAY-07949 An assignment status type with a system status of ACTIVE ASSIGN must be specified.

<b>WORKAROUND:</b>	<b>PERSONNEL</b> <input checked="" type="checkbox"/>	<b>PAYROLL</b> <input checked="" type="checkbox"/>
--------------------	------------------------------------------------------	----------------------------------------------------

There is NO systemic process that will accomplish the action properly. HR user will prepare a pseudo SF-50 to document the return to duty (NOA 292) and fax the document to the servicing payroll center.

Payroll technicians will manually enter the affected data fields to ensure the employee is returned to duty and paid correctly.
